Big Phone System Features for Everyone

- ★ **Get the Same Telephone System Features as a Big Business**
Give your customers a professional experience when they call with features like automated attendant, unlimited phone lines, voicemail, multiple greetings, hold, transfer, conditional forwarding, and find me/follow me forwarding.
- ★ **Work from Anywhere**
All you need is broadband Internet access to set up shop anywhere. Your extension travels with you, whether you are at "corporate headquarters", or a hotel.
- ★ **Business Continuity**
Instant, automatic, pre-configured disaster recovery. Calls can reach people anywhere—even if their office is out of commission. The core FeatureTel system is a carrier-class, completely redundant system located in a secure facility with redundant connections to telephone and Internet networks. We offer security few businesses could ever afford.

Save Money

- ★ **No Phone System to Buy**
FeatureTel's technology eliminates the need for a costly on-site telephone system (PBX), significantly lowering the initial investment and total cost of ownership.
- ★ **Fixed Monthly Costs with no Hidden Fees**
FeatureTel's "flat monthly fee" model helps manage cash flow—there are no hidden fees, no ongoing maintenance bills and no charges for moves or changes.
- ★ **Eliminate Multiple Telephone Line Charges**
Your broadband Internet connection brings you your telephone line and telephone system features.
- ★ **Lower Local and Long Distance Phone Bills**
Long distance rates as low as 5 cents per minute for Intra- or Inter-state calls! Unbeatable international rates.

Rock Solid System

- ★ **The Telephone System is in a Hardened 'Bunker' Facility**
The core FeatureTel Systems are redundant carrier-class network components with over three years of 99.999+% availability.
- ★ **24/7 Proactive Monitoring of the Entire System**
Constant monitoring catches problems before they grow.
